## FREE SEMINAR SERIES

### THURSDAY 4 APRIL 2019

**2:00pm - 3:00pm**

#### **Producing high quality compressed air**

In this presentation we will learn more about the importance of compressed air quality and how different compressed air treatment technologies can assist in producing reliable, high quality and dry compressed air.

**3:15pm - 4:15pm**

#### **Subaru repairability**

With the ongoing developments in technology and importance of maintaining vehicle integrity in structures and driver assist technology, Subaru will outline the specific needs within their vehicle range using a common-sense approach.

### FRIDAY 5 APRIL 2019

**10:30am - 11:30am**

#### **Understanding Volkswagen repairs**

The ability to repair Volkswagen vehicles will require repairers to have the correct equipment, training and an understanding of the materials used in their vehicle model range. This presentation will provide repairers with a better understanding of what Volkswagen requires.

**12:00pm - 1:00pm**

#### **Repair and prepare for the future**

Our OEM panellists will discuss the requirements of collision repairers into the future when operating a modern collision business.

**1:00pm - 2:00pm**

#### **KEYNOTE: The six secrets revealed**

Dave Luehr gives a passionate and entertaining portrayal of his popular book, The Secrets of America's Greatest Body Shops. Sharing lessons from a lifetime of industry expertise, combined with lessons learned from successful collision repairers worldwide, Dave helps shop leaders understand that anyone with the right mental attitude can achieve incredible levels of success. Dave will explain why "right now is the greatest time in history to be in the collision repair business... but only for those with the right mindset!"

Understanding the rapidly emerging trends and developing industry leading standards

Seminar Sponsor

### SATURDAY 6 APRIL 2019

**10:30am - 11:30am**

#### **Mixed materials, repair methods, technology**

The now and why of collision repair from an OEM perspective.

**11:30am - 12:30pm**

#### **KEYNOTE: ADAS increases repair technology demands on repairers right now**

ADAS is fitted to vehicles supplied across the world and requires enhanced electronics / software skills. This presentation gives a range of information and real manufacturer examples of calibration processes.

**1:00pm - 2:00pm**

#### **Subaru repairability**

With the ongoing developments in technology and importance of maintaining vehicle integrity in structures and driver assist technology, Subaru will outline the specific needs within their vehicle range using a common-sense approach.

**2:00pm - 3:00pm**

#### **Understanding Volkswagen repairs**

The ability to repair Volkswagen vehicles will require repairers to have the correct equipment, training and an understanding of the materials used in their vehicle model range. This presentation will provide repairers with a better understanding of what Volkswagen requires.
